| <b>Examiner-Initiated Interview Summary</b> | <b>Application No.</b><br>10/076,034 | <b>Applicant(s)</b><br>NISHIMURA ET AL. |  |
|   | <b>Examiner</b><br>Carlos Lopez      | <b>Art Unit</b><br>1731                 |  |

**All Participants:**

(1) Carlos Lopez.

(2) Andrew Tiajolloff.

**Status of Application:** Pending

(3) \_\_\_\_\_.

(4) \_\_\_\_\_.

**Date of Interview:** 9 July 2004

**Time:** 4pm

**Type of Interview:**

☒ Telephonic

☐ Video Conference

☐ Personal (Copy given to: ☐ Applicant ☐ Applicant's representative)

Exhibit Shown or Demonstrated: ☐ Yes ☐ No

If Yes, provide a brief description:

**Part I.**

Rejection(s) discussed:

*102(b)/103(a) rejection over US 6094941*

Claims discussed:

*1*

Prior art documents discussed:

*US 6094941*

**Part II.**

SUBSTANCE OF INTERVIEW DESCRIBING THE GENERAL NATURE OF WHAT WAS DISCUSSED:

*See Continuation Sheet*

**Part III.**

☒ It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview directly resulted in the allowance of the application. The examiner will provide a written summary of the substance of the interview in the Notice of Allowability.

☐ It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview did not result in resolution of all issues. A brief summary by the examiner appears in Part II above.

  
(Examiner/SPE Signature)

  
(Applicant/Applicant's Representative Signature – if appropriate)

Continuation of Substance of Interview including description of the general nature of what was discussed:  
It was noted to applicant that instant claim 1 reads on US 6094941 because the natural diffusion of hydrogen into the glass member would cause a decrease in pressure in the sealed chamber of US 6094941. Applicant agreed to insert the magnitude of the pressure decrease by inserting the limitation "in an amount in the range from 7.5 atm to 75 " to thus not read on the pressure decrease caused by the natural diffusion of the hydrogen into the glass member.
